Committee Of Senate Approves Tax Reduction

Senate Finance Committee Formally Calls For Four Billion Tax Cut

FOR REDUCTION OF INCOME TAX RATES

(BULLETIN)

WASHINGTON, May 17.—(INS)—The Senate Finance Committee today formally called for approval of its four billion dollar tax reduction bill as a "check on any recession" in fiscal 1948.

The committee filed a 43-page report on its 10 to 30 per cent tax reduction bill, slated to come up in the Senate Monday. The report stated:

Serious Restriction
"The heavy rates now in effect constitute a serious restriction on consumer expenditures, retard new investments and inhibit managerial initiative. A general reduction of these rates at the present time would contribute to the maintenance of the existing high levels of employment and output."

Defending the committee's form of tax reduction, which Republican Senators claim would leave over five billion dollars for debt retirement, the report added:

"The additional income placed in the hands of the consumers by this bill will act as a check on any recession that may be forecast for the fiscal year 1948, and will tend to offset the reduction in consumer purchasing power which is involved in the debt-retirement operation."

Difficulties Face Efforts To Form Italian Cabinet

ROME, May 17.—(INS)—Italian bitterness over the peace treaty heightened former Premier Francesco Nitti's difficulties today in pulling a new cabinet from the nation's political cauldron.

The 79-year-old statesman has pledged himself to form "a national unity cabinet" from the "widest possible coalition."

Behind him he has the record of the defunct De Gasperi coalition which, it was learned today, fell to pieces partly as a result of resentment against the Paris treaty.

Leftists—particularly left-wing Socialists—were reported to have helped bring on the collapse by their efforts to place "blame" for the unhappy treaty on De Gasperi's shoulders.

Causes of the treaty arousing the strongest Italian resentment are those stripping the nation of its colonies, amputating the Trieste area and wiping out the Italian fleet.

The coroner reported she was found by her husband, Thomas, an engineer, when he returned from work.

She had been in ill health and under a physician's treatment for a nervous disorder, the coroner said.

May To Resume Witness Stand In Trial On Monday

Former Congressman Opens Testimony With Denial Of Fraud Charges

MAY BE WITNESS FOR SEVERAL DAYS

By CHARLES E. SEIB
(U. S. Staff Correspondent)
WASHINGTON, May 17.—Ex-Congressman May (D) Ky., and his lawyers today mapped the second installment of his "dollar-by-dollar" story of wartime dealings with war contractors Henry and Murray Garrison.

The former chairman of the House Military Committee is scheduled to resume the witness stand Monday at the sensational May-Garrison war fraud conspiracy trial.

He has promised to go over "every cent" of nearly \$500,000 the government contends he was paid by the Garsons, and show that none of it came to him as bribery.

Starts Testimony
In his opening session on the stand, the ex-Congressman told the jury that \$7,500 of the \$500,000 total was paid to him by Murray Garrison in a legitimate mangonerie over prospecting deal. He declared that those payments had "no connection" with the Garrison munitions combine.

May is expected to devote several days of testimony of explaining just what was done with the rest of the money.

Much of it came into his hands through the Garrison-financed Cum-

NEW YORK, May 17.—(INS)—Patrolman Mariano Abello, handicapped since childhood, was found guilty of second degree murder in the strangling of Mrs. Katherine Miller, 42-year-old divorcee.

The all-male jury recommended mercy for Abello after deliberating nearly 11 hours. Under the law Abello may be sentenced to 30 years in prison.

Abello was found guilty of strangling Mrs. Miller while she was sitting in a radio car with him. He then halted a motorist and forced the motorist to drive him to his home in the Bronx.

Shortly after he attempted suicide by shooting himself in the mouth.

Japan May Seek Army Of 100,000

TOKYO, May 17.—(INS)—Certain unnamed Japanese leaders were dabbling with the idea today of asking the allies to permit the country to establish a 100,000-man army similar to the one Germany was granted by the Versailles treaty.

At least one allied mission head has been asked by an official of the Japanese foreign office what his government would think of a plan which would give Japan an army plus a small air force.

Rank-And-File Miners Expect Wage Agreement

By NORMAN AGATHON
(U. S. Staff Correspondent)
PITTSBURGH, May 17.—Rank-and-file soft coal miners today were confident their union chief, John L. Lewis, would reach a contract agreement with northern coal operators and avert a possible strike July 1.

Miners and district United Mine Workers officials said Lewis was deadly serious in reaching a 1947-48 wage pact and pointed to his decision to set aside the union's industry-wide bargaining mandate. The last UMW convention directed Lewis to obtain an industry-wide agreement.

The diggers claimed that once the northern operators have signed a new contract southern operators, more or less, will be forced to fall into line.

Throughout the rich bituminous fields of West Virginia and Pennsylvania, which employs more than 100,000 miners, the industry-wide bargaining mandate is being tested.

Sweeping Hollywood Probe Of Communism May Be Development

HOLLYWOOD, May 17.—(INS)—Hollywood's movie moguls today had before them a suggestion virtually tantamount to an order that they purge the film industry of the Reds who have infiltrated into the studios.

The injunction came from Chairman J. Parnell Thomas of the House Un-American Activities Committee, who, with Congressman John McDowell, has just completed a preliminary 10-day sub-committee hearing on Communism in Hollywood.

May Be Sweeping Probe
Before he left for Washington Thomas disclosed that if the committee as a whole acts on his recommendations the film capital's Reds will become the subject of an investigation so sweeping that the probe will require four months to complete.

In calling for a casting out of the Reds Thomas declared:

"The insidious propaganda of the Communist has no place in the movies which entertain millions of Americans."

"But it seems to me the quickest and most effective way of eliminating it would be for Hollywood to

European Relief Compromise Is Aid To Truman

By WILLIAM THEIS
(U. S. Staff Correspondent)
WASHINGTON, May 17.—Bipartisan cooperation on President Truman's emergency foreign aid program paid off for the administration today in a house-senate compromise providing virtually the full \$50 million dollars sought for European relief.

The compromise set up for final approval next week the second half of Mr. Truman's blue-print for staying off economic, physical and political collapse in war-ravaged Europe.

The first and more controversial item already was on the president's desk awaiting his signature—the 400 million dollar Greek-Turkish aid bill.

The president won from house-senate conferees a bill authorizing

Southern Coal Producers May Split On Issues

U. M. W. Forecasts That Southern Association Ranks May Be Divided

NORTHERN OPERATORS MEETING WITH LEWIS

By PHILLIPS J. PECK
(U. S. Staff Correspondent)
WASHINGTON, May 17.—The United Mine Workers union today forecast a "split" in the ranks of southern coal producers who thus far have talked at industry-wide bargaining on terms of a new mine wage agreement.

Bituminous operators representing 75 per cent of the nation's soft coal tonnage have opened negotiations with John L. Lewis for a private contract to supplant the year-old government-UMW agreement which expires June 30.

Demand Separate Bargaining
The Southern Coal Producers Association demanded separate bargaining meetings and refused to join in industry-wide talks.

Today, the United Mine Workers Journal published a report that six of the 14 groups comprising the Southern Association are "agreeable" to a national contract and will not countenance "any unnecessary delays" in negotiating such a pact.

The publication added:

"All of which means that these companies will accept whatever agreement is reached by the conference representing a majority of the 14 groups comprising the Southern Association are 'agreeable' to a national contract and will not countenance 'any unnecessary delays' in negotiating such a pact."

Free On Bond
Lewis is committed by the UMW convention to obtain a uniform national wage contract but not necessarily to industry-wide bargaining.

Major Flare-Up In India Is Feared

LONDON, May 17.—(INS)—Diplomatic circles in London were showing increasing concern today over the danger of a major flare-up in India.

Lord Ismay was said to have warned the cabinet that the colonial administration in India is threatened with a complete breakdown by the heightened tension.

Ismay is chief of staff for Viscount Mountbatten, Viceroy of India, who is due in London this week-end to confer with government leaders.

The diplomatic writer for the London Daily Telegraph said Mountbatten will present them with the problem of how power can be turned over to the Indians without plunging the great sub-continent into civil war.

The article said that commonwealth will be given a report on Mountbatten's discussions.

Leaves Suddenly For Bedside Of His Aged Mother

Receives Message Early This Morning That Mother's Condition Is Worse

MOTHER, AGED 94, HAS "SET BACK" IN NIGHT

(BULLETIN)

GRANDVIEW, Mo., May 17.—(INS)—President Truman arrived at Grandview airport at 12:31 p. m. (CDT) today aboard "The Flying White House" to visit his ailing 94-year-old mother, Mrs. Martha E. Truman.

WASHINGTON, May 17.—(INS)—President Truman today sped by air to the bedside of his 94-year-old mother, Mrs. Martha Truman, who is seriously ill at her Grandview, Mo., home.

The president was awakened early this morning by a telephone call from his brother and sister at Grandview informing him that their mother had undergone a "set back" but had improved somewhat.

At 6:15 a. m. a second call came saying she was worse.

Mr. Truman promptly ordered out his plane, "The Flying White House," and took off from Washington's ATC airport at 8:45 a. m. EDT. The White House in announcing the president's sudden departure said flatly that Mrs. Truman's condition was serious.

Has Broken Hip

The president's aged mother has been ill for some months. She fell and broke her hip late last year and has been confined to her bed since that time.

Mr. Truman made a special trip to spend a few hours with her last Sunday, "Mother's Day."

Route

OTHER NEWS OF
COUNTY AFFAIRS

Asking that the right of way of the proposed improvement of Route 18 between New Wilmington and the intersection of the Pulaski road be changed slightly, J. L. Mitchell, and Roy Thompson appeared before the county commissioners on Friday.

Mr. Mitchell stated that his home was now about 78 feet from the edge of the highway but that the new plan called for a cut towards his home which would put him only about 40 feet from the highway. He said a slight deviation in the right of way could be accomplished without difficulty.

Mr. Thompson said the proposed right of way would completely ruin a choice building lot for him and asked a slight change. The men were advised to take the matter up with S. L. Jackson, district engineer of the highway department in Franklin.

HEAVY SENTENCE

Up before Judge W. Walter Braham for driving while intoxicated, Thomas Tavolieri was fined \$100 and costs and drew six months in the county jail, the most severe sentence for this offense in a long time. Tavolieri, a resident of Cascade street is said to have hit several cars when the offense occurred.

The charge of worthless check passing against James Farrell of Edinburg was made known at the request of the district attorney, it being stated that the offense was an old one for which Mr. Farrell had been prosecuted once before.

WHO PAYS WHO?

The county commissioners have been presented with a bill for one dollar and the question arises as to whether or not the budget carries out appropriations for such purposes. The bill is from the City of New Castle for overtime parking at a parking meter. The commissioners are listed as owners of the car, actually the car is a county car operated by the sheriff. Now the question is who pays who?

LEAVES SUDDENLY FOR BEDSIDE OF HIS AGED MOTHER

(Continued from Page One)

Mary Jane Truman, spent the night at the bedside of her mother.

Miss Truman makes her home with the mother and Vivien Truman lives near Grandview.

Mr. Truman was accompanied by his two principal secretaries, Matthew Connolly and Charles C. Ross. The White House said that the president's plane, "The Flying White House," will land at Grandview, Mo. The flight normally takes about four hours.

White House Physician There

Brig. Gen. Wallace Graham, white House physician, who has been attending the president's mother, is at the Truman home in Grandview.

The ties between President Truman and his mother have always been exceptionally strong.

Since he entered the White House the president has made many trips back to Missouri and most of them have been to see his mother.

She always says good-bye to him with a motherly admonition to "be a good boy."

The White House gave no intimation as to how long Mr. Truman expected to be in Missouri and his absence from Washington undoubtedly will be guided by his mother's condition.

Presidential Secretary Eben Ayers said that Mr. Truman will reside at the Muehlbach hotel in Kansas City at the present time.

RANK-AND-FILE MINERS EXPECT WAGE AGREEMENT

(Continued from Page One)

50 per cent of the UMW membership and produces 50 per cent of the nation's bituminous coal, miners said Lewis would demand a 10-cent a ton royalty, the same pay for 40 hours now earned in 54 and an extension of the mine safety code.

Meanwhile the mines were working at 100 per cent capacity and the diggers awaited the June 30 deadline to see what would happen. All appeared happy over conditions right now, but hoped for, and expected, the welfare clause in the new contract.

At the same time steel mills and roads, the country's largest users of soft coal, took a pessimistic view and began accumulating huge stockpiles of coal to tide them over should negotiations bog down and a strike result.

The committee chairman said that the parade of celebrity witnesses, which included novelist Rupert Hughes and film star Adolphe Menjou, "has caused the committee to broaden its field of investigations which will certainly result in hundreds of Hollywood Communists being subpoenaed for the public hearing in Washington, D. C."

Thomas left for Washington with a five-point program to submit to the committee as a whole. He proposed:

1. To hold an all-inclusive public hearing beginning June 16 in Washington in connection with Hans Eisler, Hollywood-German-alleged Communist composer and others.
2. To initiate a broader field investigation of Communism in the motion picture industry.
3. This to be followed by a full-dress public hearing of Communism in Hollywood or Washington.
4. Start public hearings on June 26 at Washington in connection with the revelations by Viktor A. Kravchenko and others.
5. To submit to both Appropriation Committee and Judiciary Committee, which includes immigration and naturalization material obtained in connection with the procedure and the regulation of immigration in southern California and Texas.

Kravchenko is a former Russian army officer who denounced Communism and authored the book, "I Chose Freedom." Now in Hollywood for the filming of his book, his life was threatened four days ago.

EMANUEL SHENKAN IS TAKEN BY DEATH

(Continued from Page One)

and Stephen and Florence Ann Finkle, all of New Castle. Two brothers Samuel and Isaac Shenkan of Pittsburgh and a sister, Mrs. David Wilkoff of Youngstown survive.

In Emanuel Shenkan, New Castle had a citizen who believed in his civic responsibilities, and gave of his time, his talents and his money freely, many times at the sacrifice of his own physical energy. He was a charitable man but the extent of his charities will never be fully known for in these matters he preferred to do good without any public display. He was a man of tolerance whose Americanism recognized no artificial barriers of race, color or creed. He had been in business in New Castle since 1927.

Served In Many Lines

He was a long time member of Temple Israel and served upon its board for a number of years. He had been a member of B'nai B'rith for many years and also the Benevolent Protective Order of Elks. He was a member of the Rotary Club and at one time headed the work for crippled children for that organization.

During the war Mr. Shenkan gave unsparingly of himself to war activities, particularly the U.S.O., of which he was a director and for a time, the chairman. He was a director of the Community Chest, the Greater New Castle Association, The Castleton hotel, at one time headed the Retail Merchants' war effort director of the board of the Jameson Memorial Hospital, and was a member of the Pittsburgh Furniture club. His last civic activity was the recent Cancer campaign in which he did outstanding work.

He was one of the original members of the Veterans' Advisory Committee and served until his death. The Gunner Sergeant Harry T. Burns detachment of the Marine Corps League made him an honorary member for his work in aiding the organization.

The body will lie in the Leyde Funeral Home and friends may call tonight from 7 to 9 o'clock. Sunday afternoon from two to four o'clock and Sunday night from seven to nine o'clock. Funeral services will be held Monday afternoon, May 19 at two o'clock from the Leyde Funeral Home at Highland and Winter avenue, and interment will be in Oak Park cemetery. Rabbi Iwan Gruen of Temple Israel will officiate.

MAY TO RESUME WITNESS STAND IN TRIAL ON MONDAY

berland Lumber Company of Prestonsburg, Ky. The government maintains that the company was set up to hide bribery payments, but May claims he ran it for the Garssons on a non-profit basis as a contribution to the war effort.

President War Department Prosecutor William Paisley had presented four weeks of government testimony intended to show that May, while in his high Congressional post, pressured the War Department for special treatment for the Garssons and their war plants. Paisley charged that the \$60,000 was in payment for these services.

Observers who expected May to explode a bombshell on his first day as a witness were disappointed when, under the sympathetic questioning of his attorney, he told a matter of fact story about his career and about the 1941 manganese deal with Garssons.

May had frequently expressed the desire to put the "whole story" of his ties with Garssons before the public.

EUROPEAN RELIEF COMPROMISE IS AID TO TRUMAN

350 million dollars for relief, but modified to include up to 40 million dollars for the United Nations children's fund. The house had cut the bill to 200 million dollars, including children's relief.

The president, however, is directing in the compromise to "seek arrangements" postponing reparations payments from current production during the period the stricken countries are receiving U. S. relief.

This means in effect that Mr. Truman would have to negotiate with Russia for deferment of reparations payments by Italy and Hungary, under the treaties now pending in the senate.

But it was a much "softer" proviso than approved by the house originally. The house passed an amendment of Rep. Lodge (R) Mass., requiring the president to "make certain" that any reparations payable by recipient countries are postponed.

ROTARY ANNS HAVE LUNCHEON PROGRAM

Rotary Anns enjoyed a delightful luncheon program Thursday at 1 o'clock at The Castle, the event bringing to a close this season's activities.

The tables were beautifully arranged with the May Day theme predominating. Tiny yellow and white May poles centered the tables, and a dainty corsage marked each place for the 55 guests.

Group singing was held during the dinner, and following, Mrs. Carlton Ferris, president, presided and spoke briefly on the Rotary conference held in Erie. Report was made by Mrs. W. A. Hoffmaster.

Mrs. John Panella, program chairman of the afternoon, introduced Miss Dena Dietrich of Westminster college, who gave a clever reading of Dorothy Parker's "The Waltz". Two vocal selections, "Homeing" and "No, It Isn't Spring", were offered by Mrs. Ross Rosenberg and Mrs. William Caldwell.

Mrs. Fred Taylor was later in charge, introducing the speaker of the afternoon, Miss Sara Warren of the home economics department of Penn State college.

Miss Warren gave an informative talk on Foods, Fads and Fallacies. She presented her topic in a most charming manner, discussing the subject which is of interest to all women.

An informal period ensued, and the door prizes were awarded to Mrs. George Kline and Mrs. Edward Davenport.

Plans for the summer are indefinite, but regular meetings will resume in the fall.

Washington Calling

By Marquis Childs

Dewey Planning Carefully For '48

ALBANY, N. Y., May 17.—The visitor from Washington is impressed immediately with the majestic calm of this state capital. He is bound to feel as though he had escaped from a species of bedlam to some remote peak in the Himalayas. It has something of the quality of Shangri-La.
At the center of his calm world is Gov. Thomas E. Dewey. Surrounded by a team of able, completely loyal men, he is moving with calculated assurance toward his goal.
Presidency Is Goal
That goal is the presidency of the United States. Everything that has happened in the past seven months seems to make it more likely that he will achieve the goal. His stock in the public-opinion polls has gone up rapidly. The knowing in Washington and New York who like to think they are ahead of events talk as though it were a foregone conclusion that Dewey will be nominated at the Republican convention in Philadelphia a year from this June.
It may be argued, of course, that this pre-emptive position is in itself a danger so far in advance of an event that can never be certain until the votes are counted. But Dewey's innate caution and the political skill acquired through four intensive campaigns are likely to save him from the kind of indiscretions and blunders which would injure his chances.

The Parent Problem

By Garry C. Myers, Ph. D.

TEACHING PHONICS IN SCHOOL.
As I went about the nation for several years previous to about a year ago, visiting in hundreds of elementary schools, I saw evidence of the return of phonics, even of the alphabet, to the classroom.
Of course, many teachers, principals, and supervisors didn't label them as phonics but presented them in disguise, fearing they might be considered old-fashioned. However, in some places, the schools seemed ready and proud to let it be known they had a place for phonics.
Disappeared From Classroom
As you may know, phonics almost completely disappeared from most schoolrooms over a period of years. However, judging from the number of mothers who write me to know where they might find guiding materials on phonics for the child, I think that at school, it appears there are many children in the primary grades who still get no training in the sounds of letters. Moreover, many of the youngsters have trouble with reading and spelling have not learned to recognize nearly all the letters of the alphabet.
Writing of her daughter in the first grade, who is making slow progress at reading, a mother states: "She is not being taught the sounds of the letters. I feel that if she knew the sounds of the letters she would have some 'tools' with which to work out the pronunciation of a word herself."
"Do you think it would be wise for me to teach her the sounds of at least the consonants at home? If so, I would be happy to have any materials you have on the subject of phonics, or any suggestion of material I might prepare myself or get from the library."
In writing this mother I gave the name of the publisher of a series of good booklets on phonics, and of a children's magazine I edit in which is printed from time to time picture exercises on phonics, which I have worked out. Any parent can (Continued On Page Five)

From Me To You

By MESEKALL

Considerable thought has been and is now being given concerning the parking situation in this and other communities. . . of course we are primarily interested in New Castle. . . but it's a fool who will not look around and see what the other fellow is doing about similar conditions.
The Mayor's Traffic Committee has made some very worthwhile suggestions that our city fathers have made into definite steps in reducing traffic problems in all parts of the town. There are many more things that need to be done and they will be done. . . but time is an element that must be reckoned with. . . and that goes with a lot of other topics that are being discussed about town.
Some communities are doing wonders with the parking problem. . . business firms are organizing and forming companies that buy up property about the town for the purpose of insuring the customers parking space. . . These organizations are backed by the city fathers and the money these city fathers are using comes from Parking Meters. . . In a recent bulletin from the Greater New Castle Association we find the following concerning the problem of parking in the Allentown, Pennsylvania area. . . and we quote:
"For instance, in Allentown we note that they did not have adequate PARKING SPACE to accommodate their customers. To solve it, a \$250,000 corporation known as 'Park and Shop, Inc.' was formed. It is financed by stock sold to local firms. Their quotas depend upon the type of store, location and volume of business. 'Park and Shop, Inc.' will own and control all of the downtown off-street parking lots and may even build multiple story parking ramps if there is sufficient demand. Revenue from the city's parking meters is being used to help buy and police some of the lots. (Stores can advertise 'free-parking' for customers by paying at wholesale rates.)"

WHAT CONSTITUTES A GENTLEMAN?

I have already referred to the Bohemian Club of San Francisco. From the organizing of this Club up to the present time, it has been an aristocratic organization and by 'aristocratic' I mean it has contained and is containing the best in American Science, Art, Literature and Statesmanship. Naturally, it has always been a very high-brow club. There is a story told about this Club which illustrates the high-brow influence which has always been present in the affairs of the Club and which caused a great big noisy public argument.
It happened a long time ago. It began with a banquet that the Club gave for Lieutenant Carlin, Naval hero of the occasion when the American fleet was nearly destroyed in the harbor of Apia, Samoa. There were two newspapers published in San Francisco at that time—the Alta California and the Examiner and they kept not only the town of San Francisco but the nation informed about the affair. The Alta was a great newspaper at that time—a very proud one. It has since been discontinued. The Examiner is still a Hearst publication.
Fancy Blow-Out
This banquet was quite a fancy blow-out. The guest of honor appeared in full dress uniform. The members of the Bohemian Club—certainly not 'very' 'bohemian' in their apparel—showed up in dress suits and bowties. Mr. Isaac, the Alta's representative, came just as he was ordinarily dressed for work. His trousers, it seemed, were a little baggy. He was thrown out. The Alta told about the ejection in a story headlined:

Looking At Life

By Erich Brandeis

We had a newspaper publishers' convention here in New York a couple of weeks ago.
More than a thousand publishers and editors from all over the country attended it and I wish you could have been with me and met some of them.
You read much about the press nowadays.
A lot of people seem to have the idea that newspaper publishers are a bunch of bloated capitalists, being whipped into submission by their advertisers, sitting around nights in locked rooms plotting against the country's welfare.
Nothing could be farther from the truth. As you could have seen if you had been at the convention.
Newspaper publishers are human beings just as you and I. They have wives and children; they pay taxes; they work hard and play hard and they are no different from any other business or professional man.
I was particularly interested in the heads of the smaller papers and their families.
Many of the delegates had brought their wives and children along and we sat around the Waldorf-Astoria, chatting, laughing, renewing old acquaintances and making new ones.
For instance, there was Bob M. Lick, owner and publisher of the Shamokin, Pa., News-Dispatch, who had brought his charming wife and his daughter Mitzi along.
What did we talk about? Plots, strikes, Russia, communism, capitalism?
No, we talked about what shows to see, the best places to eat, about the daffodils being in bloom in Shamokin and the lilacs almost ready to burst out.
And you should have seen the (Continued On Page Five)

WHEN SOMEONE MISPRONOUNCES A WORD
Question: If a person with whom I am talking mispronounces a word and I later find it necessary to use that word, what should I do?
Answer: Avoid use of the word. Choose a synonym or change the construction. If its repetition is unavoidable, then, by all means, pronounce it properly, of course.
Question: Which is correct—lunch or luncheon?
Answer: Either. Lunch is more general and therefore preferable.
Question: I am a private secretary. When my employer introduces visitors to me, should I stand?
Answer: A woman should never stand when a man is introduced to her, unless he is a high dignitary of the church, the President of the United States or a reigning monarch. When you as hostess greet guests in your own home, you should rise to do so whether they are men or women; otherwise, you rise to greet only much older women.
Question: If I forget my card case I wish to leave a card is it permissible for me to write my name on the card of a friend?
Answer: Yes. Write your name on the face of the card below your friend's engraved name.
Question: We are giving our parents a dinner on their golden wedding anniversary. Who should propose the toast? Is there any rule governing this?
Answer: The eldest son usually proposes the first toast. If there is no son, the eldest daughter may do so. The youngest grandson might also toast his grandparents, and so might the "best man," if still living and at the dinner.

Good Books For All On Nation-Wide Basis?
American Library Group Seeks U. S. Aid
May Carry Books By Boats And Planes

Special to Central Press
WASHINGTON, May 17.—Good books in every Louisiana bayou . . . at every mountain hut in North Carolina . . . at the country crossroads in every state!
That is the aim of a bill now pending congressional action. The proponents of the bill, the American Library association, hope the day will soon come when "book-mobiles" (or trucks, planes or boats) will carry Shakespeare to every one of the 35 million rural people isolated from a library.
If the bill passes, each of the 48 states would immediately receive \$25,000 to spend on a campaign to reduce the number of ill-read persons within the state borders. More than \$25,000, and up to \$75,000, can be secured on an equal matching basis.
"It is amazing how many people in these United States, a country of literacy and free public schools, actually do not know what a book is," reveals Paul Howard, Washington spokesman for the American Library association.
Take Texas, for instance. More than half that largest of states, with a population of six million people, has no available library service.
Pennsylvania is second, with 3,500,000 persons without easy-to-reach facilities, although one of the first libraries in the country was founded in Pennsylvania by Benjamin Franklin.
Even in a top-ranking library state such as Michigan, where libraries or library units are numerous, the entire upper peninsula is sparsely serviced.
Here is the way the bill would work for all the states:
A state's library association would be given a federal grant of \$25,000 for a year's work. Any amount extra the state could muster up would be matched dollar for dollar by the federal treasury. The limit of Uncle Sam's pocket would be \$75,000. But if the state made maximum use of the proposal it would be \$175,000 and the minimum would be \$25,000.
The program would be of five years' duration.
"If the people in the rural areas are exposed to library service as long as five years, I have no fear about the continuing of the program. I know it will arouse enough interest that state legislatures will take over the financing of such a library service," Howard said.
Carefully, the ALA has sidestepped any effort toward regimentation of this educational venture, knowing how jealously the states cling to state control of education. What method the state uses in bringing more books to more people is up to the state officials.
In Texas, where distances are so great and air travel extensive, planes may be converted into libraries-with-wings, moving across the wide west prairies from one ranch community to another.
In Louisiana, boats would probably be the only way to haul library units back through the swamps to the trappers' villages.
In Michigan, automobiles with runners for wheels may be the only way to get the books across the frozen straits of Mackinaw in winter.
This quest to bring literature to the stranded American is not a new dream. Librarians for years have been thinking on these terms. But funds were not available. Now there's a program and the men in Congress serving on the House committee on education and labor are talking seriously and favorably about its merits. Hearings will start in May.

By J. C. Ostreicher, INS Foreign Director

British Foreign Secretary Ernest Bevin let the world know today that in his opinion the leading nations of the world must get together now or never.
In a forceful address to the House of Commons at the opening of debate on foreign affairs, Bevin made it clear that time is running short for the Big Four allied nations to reach agreements on the German and Austrian peace treaties.
His immediate concern was that agreements must be reached at the next conference of Big Four foreign ministers scheduled for next November in London.
But his thoughts went far beyond to include the future well-being of the world.
Observers inferred from two pointed remarks that the British Foreign Secretary foresees unhappy consequences unless major achievements are recorded at the London parley.

SCARS
Scars are usually the remains of some accident. A cut or a burn may occur. After it heals, a scar is left. Usually they are not very pretty and are avoided as much as possible. There is one scar which is very necessary. It is a vaccination mark. Smallpox is a terrible disease. In our times we have no idea of what a smallpox epidemic can be. Vaccination is our best safeguard. Universal vaccination is our only hope of keeping smallpox under control.
Although it is a rarity, we cannot afford to get careless about it. If vaccination were neglected, the epidemics would soon be as bad as ever.
If Rosie is starting to school next Fall, better have her vaccinated now and have it over with. Then she will have all summer to play.

ARMED TO THE TEETH

The world today is an armed camp. The nations have not laid down their arms since the fighting ended two years ago. Nearly all have compulsory military training. Most, including some of the poorest, are spending a far greater part of their budgets than they can afford on military establishments—up to 80 per cent in famine-ravaged China. Ground armies alone have 19,000,000 men in uniform.

The two great powers, from a military standpoint, are the United States and Russia. America rules the waves, with 57 per cent of the world's naval tonnage to Britain's 23 per cent. Russia is a distant third, with less than seven per cent.

Russia has the most powerful ground army, with 3,800,000 men, according to best available figures. Britain, traditionally a sea power, is next, with 1,210,000. Impoverished India follows with 1,000,000. The United States and Yugoslavia have approximately 675,000 each in their ground forces. France, traditionally the strongest power on land, has an army of 430,000 and a navy with only three per cent of the world's total tonnage.

It may surprise many persons to learn that the world's largest ground forces belong not to Russia but to China, which has 5,750,000 men under arms. But the Chinese forces, ill-fed, ill-clothed and ill-armed are not formidable to more modern powers.

With the United States predominant at sea and Russia on land, the two nations are more evenly matched in the air. The United States has 37,000 planes to Russia's 25,000, though in quality, range and striking power this country's edge is greater than these figures suggest.

There is an appalling quantity of machinery for killing in the world today. Military machines are costing the nations at least \$10,000,000,000 more a year than they did in 1938. The world is an armed camp because it fears Moscow communism.

IT'S ALL VERY CONFUSING

Harold L. Ickes, long the Secretary of the Interior for this nation is either confused or else he has convicted himself of political chicanery. Mr. Ickes is now raising his strident voice in protest against the appointment of former Representative Johnson of Oklahoma to a judgeship. In the words of Mr. Ickes, "Johnson lacks the qualities a Federal judge should possess."

But in 1945 it was different. Harold was then Secretary of the Interior and Representative Johnson was—to use a colloquialism—"getting in Ickes hair" with his criticism. So Harold got Johnson a nomination to a Federal judgeship.

Now he says he did it so that Johnson would be put "where he would do the least harm." That might mean anything but certainly could mean that he would be in no position to criticize the Ickes regime.

If Johnson has not the qualities of a judge now he surely didn't have them in 1945. Yet Ickes worked for and got him the nomination, only to have Johnson refuse it then and want it now.

Surely Mr. Ickes, a sort of self appointed Sir Galahad, would not be guilty of recommending a man for high public office whom he thought was unfit, particularly the office of Federal judge where the lives and property of citizens might be up for judgment.

Or is it that Mr. Ickes is what we have suspicioned for some time, a politician who will get his way if it is at all possible, regardless of the ethics of the thing?
Unfortunately we will be more or less critical of Mr. Ickes public utterances in the future. From his actions in the Johnson matter, and his statements before the Senate Judiciary Committee we will have to believe that perhaps he doesn't mean what he says.

Yellowstone Park has been opened for the season, and attendants predict a record 800,000 tourists will invade it this summer. In few more years it may be necessary to install traffic lights and parking meters.

M. Dale Andrews Makes Statement

Discusses Building Of Prefabricated
Houses And Growth Of
His Company

M. Dale Andrews of the M. Dale Andrews Lumber Industries, Inc., makes the following statements regarding the building of prefabricated houses and the growth of the company:

"Previous to the war we developed a series of prefabricated houses, but we were unable to put them on the market after the war started. Since the war we have studied the prefabricating industry constantly from all angles—costs, design and durability but did not arrive at the proper procedure until now.

"We found that prefabricating houses was very costly in the conventional type methods. In most cases it was not a money saving proposition but was being sold purely through advertising. Shipping, commissions, advertising and sales costs have been taking all the profits from the short-cut methods. We have decided that a prefabricated house must be manufactured and distributed in a limited area, namely, the area from which the plant can reach the customer without costly selling and delivery. We have developed our first house within these limitations.

"Our house is being prefabricated directly in connection with our concentration yard and wood working plant. We are distributing these houses at prices advertised in our own trade area, only we have set up a production line to manufacture this house and we will deliver by our own trucks in quantities useable at each period of construction. We have every labor saving device possible. We do not have any salesmen or commission men. Selling is being done only by people directly connected with our own organization. The house we are now offering is our No. 1 house. It is well designed, has good possibilities for additions and modern conveniences, and we believe it is the best proposition on the market for the small family who needs a house at a low price for immediate use. We are in position to make deliveries.

"The M. Dale Andrews Lumber Industries was started in 1932 on the lot plant, near the Curry Lumber company. We moved to Mt. Jackson that same year to reduce our overhead. We have grown through service from a very small operation to our present capacity as one of the largest lumber industries in the state of Pennsylvania.

"From our concentration yard at Beaver, Pa., we distribute all types of lumber and lumber products, millwork, insulation, wall boards, roofing, wood and steel sash, doors, sewer pipe, septic tanks and a complete line of builders' supplies. In our sales room at Mt. Jackson we supply lumber, millwork, DuPont paint, Celotex roofing, Marlite plastic finish, wall tile and panels, builders' supplies, all kinds of power water pumps, General Electric appliances, Jamestown kitchen and laundry units, plumbing supplies, Esco milk coolers, Esco deep freeze units, nails, bolts, a complete line of builders' hardware, screens, storm windows, farm and home shop tools and other miscellaneous items.

"March 1, 1947, we became incorporated, our capital stock being issued to our employees only. Our entire permanent personnel of 30 people are all now stockholders in the corporation and they share in the profits accordingly. We now claim the finest service possible at the very lowest prices."

NEED A
HOME?

... then here's

Our Answer to Your Housing Problem

- Developed for the Purpose of Supplying Your Immediate Needs in Housing . . .
- Proposed to Furnish Adequate Living Quarters With Amazing Flexibility for Future Development . . .

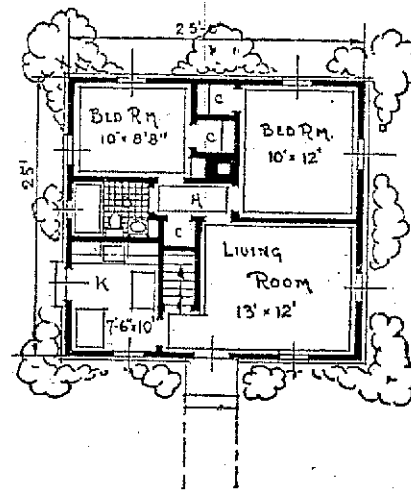

The prefabricated home shown above is approved by and built according to Federal Housing Administration standards. The framing is all full sized and spaced 16" on centers in comparison to the average prefabricated house built with under-sized dimension lumber spaced farther apart.

You build the foundation from our specifications and from that point on our material will be delivered cut and pre-fit for the first floor. The walls—exterior and interior are all prefabricated so that they can be set-up in sections. The roof rafters and ceiling pieces are pre-cut, fitted ready for erection.

The flooring, siding and roofing sheathing will not be prefabricated but will be delivered as needed and can be more economically cut and installed on the job.

We are proposing to furnish for flooring a No. 2 and better grade Yellow Pine which can be used as sub-floor after better flooring becomes available. For the side walls we propose Celotex Siding made in the form of large sheets of Celotex, asphalt treated and coated with granules in colors. This material can be used for the time being as both wall sheathing and siding. Roofing will be done in a permanent manner using a good grade of Yellow Pine boards covered with 210-lb. composition shingles in colors.

This house is the only one of its type on the market, being prefabricated and put together in the manner of a custom built house. The panels are not rectangular and bolted or nailed together in the usual fashion for prefabricated houses, but are over-lapping, making a rigid storm-proof structure

home at a REDUCED PRICE.

that will not sag, sway or move in any direction. Corners are all braced and tied together in a manner that will resist all elements.

We are able to offer this house at a price much lower than any of our competitors because we have our own concentration yard from which all materials can be supplied, paying no profits to other distribution sources. There is only one freight bill to be paid and that is from the material manufacturer's plant to our yard. Our plant is so located and equipped that we are able to prefabricate and manufacture a complete assembly in a very efficient manner. The material is then delivered to your building site by our trucks, not in one large heap but in quantities useable for each stage of construction.

Simplifying the erection of this house we have set up a full size working model at our plant for your inspection. We furnish detailed blueprints to be used on the job. We have a supervisor that can be called to your project for advice and assistance. This system makes it possible for you to build the house without the aid of any skilled mechanics.

Financing this home is a very simple matter. Any local bank or savings and loan association will cooperate. We will furnish plans that you will submit to either one for the approval of the Federal Housing Administration or the Veterans' Administration. Straight bank loans will also be made available.

In conclusion, we know our proposition offers far more for your money, put up in a better package than any other contribution to the housing shortage. **WE HAVE WITHHELD THIS ANNOUNCEMENT UNTIL WE WERE SURE.**

FALCON BOWLERS BANQUET TONIGHT

Elaborate Program Has Been Arranged For Bowlers, Wives And Sweethearts

This evening the Polish Falcon bowlers will gather at the club rooms on Miller street with their wives and sweethearts and celebrate one of the most successful bowling seasons in their seven years of existence.

The general committee, with President Tankiewicz in charge, has arranged an elaborate program. Luncheon will be served at eight p. m. Photographs will be taken of the group and prizes will be awarded the "Hobbs" winners of the playoff. Individual prizes will also be given at this time, after which dancing and a social time will be the agenda for the rest of the evening. Officers of the club are invited guests.

The Falcon ten-pin league is composed of 35 bowlers and divided into six teams. Recently the local legions journeyed to Rochester, N. Y., and made a creditable showing. Three of the group rolled excellent scores and are expected to win national honors among leading bowlers of the national league. The three were S. Tankiewicz, with a 652 three-game total in singles, Eddie Kwiat, a 648 total, and Alex Pionko with a 642 total, all singles. The final results are not yet tabulated and the local boys are confident that a few more prizes will be won in doubles and five-man team events.

The Falcon league has grown in the last few years. In 1939-40 there were but nine bowlers; this season 45 started, but the veterans left for school. Next season the Falcons are planning bigger things. The general committee is composed of S. Tankiewicz, Stan Augustyn, Alex Pionko, W. Petrovich and M. Koldieski.

Paradise Creek To Open May 23

Anglers Can Fish For Five Days With Limit Of Two Fish Daily

HARRISBURG, May 17.—(INS)—The State Fish Commission announced today that fishermen's Paradise on Spring creek near Dolestown will be opened to trout anglers May 23 for an eight-week season.

Approximately 20,000 sportmen were expected to try their luck this year in the abundantly stocked, mile-long water reserve that forms Pennsylvania's wishing "show place". An excellent season was forecast. Gates at the enclosed area will be opened at 8 a. m. and closed at 8 p. m. daily, the commission said, while a limit of two fish a day will be enforced.

Barbless Hooks Men will be permitted to take trout up to 10 inches in length while women will be limited to seven-inch fish.

Spring creek has been filled with brook, brown and rainbow trout as an experiment in stocking methods and each year the commission opens the Center county reservation to the public. Only artificial flies and barbless hooks may be used in the stream. Spinners, spoons and similar devices have been banned.

Among centenarians women outnumber men three to one, says the Encyclopedia Britannica.

Johnson Bronze Names New Baseball Park "P. J. Flaherty Field"

Dedication Will Be Memorial Day Authorities Say

Johnson Bronze Employees Association Vote Overwhelmingly For 'Flaherty Field'

RUSH COMPLETION OF VAST PROJECT

The Johnson Bronze Employees Association has overwhelmingly voted to call their new ball park "The P. J. Flaherty Field" in honor of P. J. Flaherty, chairman of the board of the Johnson Bronze Co.

Fitting Tribute

When the present enlargement of the local plant is completed the Johnson Bronze plant will rank with the best in the United States in the manufacture of bronze fittings.

Any profits from the operation of the ball park will be used to further develop it as a modern baseball park. New Castle has long been in need of such a facility for recreation purposes.

Available to Juniors
A ready-made picnic grove is a part of the site and already a picnic field has been developed and other improvements will be made as funds are available.

With a schedule of baseball games already practically completed for the months of June and July which will bring to New Castle leading semi pro, independent and sandlot baseball clubs, many interesting ball games will be offered to the public.

Dedication May 30
The June and July program is highlighted by the district tournament starting on June 13th and the state tournament starting on July 12th. Both of these tournaments are being sponsored by the National Baseball Congress.

Present plans call for the dedication of the park on Friday, May 30th when the Fiberglas Corporation will send its Huntington, Pa., team here to help dedicate the park. On Saturday night, May 31st and Sunday, June 1st, the park will be open to the public.

Softball Loop Results Friday

Following are the scores in the City-Industrial Softball League for Friday:
Brotherhood of Trainmen 13, Redskins 0.
Duca D'Abuzzi 10, Forest A. C., 2.
Johnson Bronze 10, Snake's Run 2.

Bradley To Box Pastovich Here

Brothers Training For Ronzi And Brennan Prepping For Underwood

Having been decided by Tony Zanish, a veteran amateur of Sharon, Bill Bradley of this city, who won a questionable decision over Nelson Taylor of Youngstown, has been matched to box Charlie Pastovich of Youngstown, in one of the three rounders on the eight-bout program to benefit the S. of Y. athletic fund, Wednesday night.

In the opening chapter of his bout with Taylor, the latter put a right hand to the jaw that shook Bradley from head to heels then followed it with another right that spun Bradley around in a circle. He was the more aggressive in the second and kept his left in Taylor's face in the third.

Notwithstanding, the fans did not like the decision, probably because Bradley rounded up Taylor and upon one occasion shoved his head over the ropes. Books greeted the decision, and being Zanish stopped Pastovich. Matchmaker Tommy Leach of the Jefferson A.C., picked Pastovich for Bradley who is managed by Tom Bowler of Pittsburgh.

Elkins Brothers is training hard daily for his bout with Elmer Ronzi of Youngstown, which will be the main attraction. The first bout which Elkins won was filled with thrills. Ronzi proved a glutton for punishment, but whether Brothers can repeat is another question.

Francis Wooten of Youngstown is scheduled to provide a test for Tony Zanish, who knows all the tricks in the amateur boxing bout and Derby Brennan, training mate of Zanish is prepping for his battle with Bill Underwood of Youngstown. The schedule, in all, will have eight bouts Wednesday night.

Pulaski Champs To Dine Sunday

K. Pulaski "Big Five" City-County Basketball Champs Will Have Elaborate Banquet

DAVIES-DOUGLASS PRINCIPAL SPEAKERS

Plans have been completed at the K. Pulaski hall for the banquet Sunday night at 7:30 o'clock honoring the K. Pulaski "Big Five" city-county basketball champions for 1946-47 and the K. Pulaski Cubs. The banquet promises to surpass anything of its kind ever held at the K.P. hall, and will draw around 200 persons to the well-laden tables.

Davies-Douglass Speakers
Heading the speaking list for the evening will be Charles "Chick" Davies, famous Duquesne university coach, and William "Bill" Douglass, head basketball coach at New Castle High. Toastmastering the banquet will be Attorney Walter Kiehl, in his own inimitable style. Introducing the players will be Dr. Stanley Zarembo.

The banquet will be for the K.P. players "Big Five" and Cubs, their wives and sweethearts, plus a few special guests and those who have helped make the K.P. basketball season a tremendous success. Al Gonet, coach and manager, still insists that this is his last year at the head of the K.P. team. He has done a magnificent job and will be missed next year.

Several city and county officials will be guests at the occasion.

FERRANTE PITCHES TUBERS TO 3-1 WIN

NEW GALILEE, May 17.—Ellwood Moose remained the County league leaders today following their third straight triumph here last night.

Ellwood's Ferrante defeated Bobby Clark of the "Hot Tubs" in a six-inning mound battle, each hurler giving up seven blows. Two of the Ellwood socks, however, were for extra bases and Galilee miscued three times afield. The Friedhoff-Volpe team tallied singly in the first, second and fifth frames while the lone "Hot Tub" marker came in the second.

Lou Guzzetti of the losers was the only man to connect for two hits, both singles.

SAINTS, EDENBURG PLAY TIE

EDENBURG, May 17.—Edenburgh and St. Lucy's battled to a 4-4 tie here last night in a contest called at the end of the sixth because of darkness.

The Saints scored twice in the first, and added single runs in the third and fourth. The Tigers cracked the ice in the fourth with a run, added two in the fifth and one more in the sixth.

Edgar Leeper was on the mound for the Tigers and was hurling four-hit ball besides rapping out a double and a triple. Repasky was the Saints' chucker and had given up five blows.

The game will be played off at a later date, it was announced.

National League Pennant Race Is Closest In Years

Eight Clubs Are In Thick Of Fight For First Place, Giants Still Winning

By LES CONKLIN
(International News Service Sports Writer)
NEW YORK, May 17.—The most exciting eight-club pennant race in the history of the National League is in prospect today as the leaders continue to back up and the world champion St. Louis Cardinals, in last place at the moment, improve with a rush like Whirlaway's stretch charge.

At the moment, only three and a half games separate the seventh place Cincinnati Reds from the league-leading Chicago Cubs. And the Cards, now trailing the Reds by only two games, figure to be in the thick of the fight a week from today, the way they are going.

Mize Breaks Record
Yesterday, Mize's tenth homer not only staked the Giants to another win over the Cubs, 5 to 3, but also marked the 16th consecutive game in which Big Jim has scored a run. This cracked the National league record.

The Boston Braves, for the second night in succession, muffed a chance to take over the league lead when they lost to the rambling Cardinals. This time the score was 4 to 3.

Dodgers Scalp Pirates
Brooklyn advanced to fourth place, right behind the third-place Giants. A two-run homer by Pee Wee Reese gave the Dodgers a 3-1 win over Kirby High of the Pirates, former Brooklyn bellwether.

Schoolboy Rowe now almost venerable enough to be Mr. Chips himself, racked up his sixth straight win without a defeat by downing Cincinnati 4-4.

Blackie Bump Tigers
The American league race tightened up when the Philadelphia Athletics gave Virgil Trucks his lumps and outslugged Detroit, 11 to 5, after the Boston Red Sox swamped the St. Louis Browns, 12-7.

In the only other game played, Walter Masterson of Washington held the Cleveland Indians to four hits under the arc lights and blanked them 2-0.

HAL CHASE, one-time Prince Hal of the New York Highlanders, and one of the all-time great fielding first-basemen, is fighting for his life in Colusa, Calif., at the age of 84. Down and out, on his last legs, the erstwhile big leaguer who led the National in batting in 1918, recalls his spotted past in a recent Sporting News interview in which he readily admits he was in the know on the 1919 world series scandal, although denying he made a dime out of it. He discloses that back in his day, ball players wagered freely on games, even with bookies in the stands, a condition he intimates could not happen today or under Judge Landis aegis. In winding up the interview, Chase says: "You note that I am not in the Hall of Fame. Some of the old-timers said I was one of the greatest fielding first basemen of all time. When I die, movie magnates will make no picture like 'Pride of the Yankees', which honored that great player, Lou Gehrig. I guess that's the answer, isn't it? Gehrig had a good name, one of the best a man could have. I am an outcast, and I haven't a good name. I'm the loser, just like all gamblers are. And Judge Landis beat in power before 1919, there wouldn't have been any series scandal. Betting on games and gambling on the side would have been out. I wouldn't have been in baseball at all had Landis been commissioner. If I had, I'd have been going 'straight'. Landis saved baseball, and Chandler has to be baseball's G-man."

Joe Baksi, Kulpmont, Pa., coal miner is in London watching the amateurs in a boxing tournament. . . . Walter Reuther, former twirler for the Senators, has resigned as a scout for the Cubs with whom he has been affiliated 10 years. . . . Johnny Shor who put the 'Kibosh' on Tami Mauriello, has been matched to box Lee Savold in Boston, May 23. . . . George Benson, former star of Northwestern U., has been signed by the Chi-Rockets of the A.A.P.C. . . . Mrs. Sarah Falfrey Cooke vanquished Pauline Betz in an exhibition pro' tennis match at Smith College, 6-4, 4-6, 7-5. . . . Wampum Rotary club will hold a benefit horse show at Wampum, June 6-7. There will be 27 events, fourteen on June 6 and 13 on June 7. . . . George Mikal, six foot, nine inch center on the Chi-Bears enters the Matrimonial league Saturday when he marries Patricia LuDaveny at Oak Park, Ill. . . . Ernie Petrone will box Justo Fontaine at the Zivic arena, Millvale, Monday night.

Due to faultless taking the Preakness after Jet Pilot captured the Kentucky Derby, with Phalanx only an eye-lash behind leaves a question as to the better horse. Great interest therefore exists in the Belmont for three-year-olds May 30, and the following day when the Suburban Handicap will be run, in which it is hoped to have Assault, Armed and Styne enter. . . . Before Tuesday's game between the Red Sox and White Sox in Boston, Ted Williams visited Glenn Brann, 11-year-old legless youngster at Malden, Mass., who asked Ted to hit a home run. "I'll try, Glenn, and if I do, you'll know I hit it for you." Ted went into the game and hit two for Glenn which cheered the little fellow. . . . This recalls years ago that a local man had an ill youngster who doted on boxing. What he wouldn't give for a pair of boxing gloves. He imparted the info to Here & There who sent a set of gloves to the youngster's home. Whether or not this had anything to do with the youngster becoming better Here & There doesn't know, but he does know the youngster "perked up" and served his country in World War II.

DEDICATION WILL BE MEMORIAL DAY

(Continued From Preceding Page)

day afternoon June 1st, the Harlem Giants, a colored travelling baseball club from Buffalo, N. Y., will furnish the attraction. The complete schedule for June and July will be announced within a few days.

The light standards are being placed today and will be completed within a short time. The placing of the corrugated fence will follow the installation of the lights. The park is going to present a lovely appearance when completed.

Walker Cup Matches Are Resumed Today
ST. ANDREWS, Scotland, May 17.—(INS)—Ted Bishop of Boston, the United States amateur golf champion, was all but routed in Walker Cup competition today when he trailed by five down at the end of the morning round in his 36-hole match with Irish Joe Carr. The British and American teams started all square in today's singles competition, involving eight matches, as a result of an even break in yesterday's Scotch foursomes which opened the two-day event.

The Athletics announced that outfielder Austin Knickerbocker and pitcher Everett Fagan have been optioned to Birmingham of the Southern Association on a 24-hour recall basis.

Not, When It Will Be Shipped, But When Will It Be Delivered?

In these days of shortages the date of delivery is an essential element in most lines of business. The manufacturer says "your order will be ready to ship on the first of the month."

But that doesn't fill the need at the point of delivery. Two or three days lost in trans-shipment may tie up a job that has a contracted day of completion.

Ship by Truck and save precious days. Ship by Truck and make certain of delivery within a short time. Ship by Truck. It's the efficient way, the economical way, the modern way.

The waltz dances in which two

Arrangements are being made between members of city council, the city zoning commission and the Morris Knowles company of Pittsburgh, city planners, for a conference to be held here for the purpose of revamping the zoning ordinance.
